**FIGURE A**

1. Draw a dot in the center of your pointer and ring fingers in the first crease of the first knuckle groove.

2. Place a Sharpie between your pointer and middle finger just above the first knuckle on your finger. (Use a pencil instead of a Sharpie to represent a small tab sized spacer.)

**AXCEL BRADY ELLISON CONTOUR TAB SIZING**

3. Measure the distance between the dots and use measurement "A" on the size chart to determine which is the best fit for you!
