The Best Archery Targets in the World

COMMITTED
TO THE
FUTURE...

Barbara, William, Garion, James and Atlas McGovern

As a family owned and operated business, family means everything to us. As our family has grown, so has our extended family – all of you who have supported Rinehart Targets all of these years. The friendships and partnerships we have built over the years will carry into future generations and that means the world to us. Since the beginning, we have been committed to delivering premium, American-made products to our customers, and our mission does not waiver in 2020. In fact, this coming year will be the best yet and we could not do it without your continued support.

Thank you.

WOODLAND SERIES

Woodland Targets are designed to take an exceptional number of shots from field points and broadheads alike. These targets maintain their integrity for unparalleled target life thanks to the high density Signature Series foam replaceable inserts. Rinehart paid extra attention to form and finish on the woodland series to both 3D and block targets.

The Woodland 3D series combines the lifelike realism we are known for at a price point everyone can shoot for. Hand sculpted, anatomically correct body positions with finishing details that will have your asking is it real? No it's Rinehart!

Mr. Perfect Deer
2011 | Total Height 53"
Shoulder Height 31"
Length 36"
Simulated Wt. 125 lb.

Jimmy Big Tine
2001 | Total Height 50"

 26511 | Height 22" | Length 39"
 Simulated Wt. 75 lb.

TARGET BAG SCIENCE

Eliminates Bag Dry Rot

RINEHART RHINO BAG

The Rhino Bag is superior in construction as compared to polypropylene bags that quickly deteriorate from the sun's UV rays. Those bags start out stopping arrows but over time the sun causes the cover to become brittle. Since polyester is UV stable and provides superior print quality the Rhino Bag stays strong and shootable without the cover becoming brittle from the sun.

1. **Polyester Protection**
Most UV Stable Protection
2. **Polypropylene Wrap**
Long Term Arrow Durability
3. **Plastic Cover**
Waterproof Barrier
4. **Cut Foam Blend**
Easy Arrow Removal
5. **Burlap Center**
Arrow Stopping Core

57311 | Height 22" | Width 22" | Depth 10"

CROSSBOW BAG

The Crossbow Bag features an exclusive Dual Layered Power Band Technology to last season after season and stop crossbow bolts traveling up to 450 feet per second. The crossbow-specific MOA Sight-In Grid Target Face makes crossbow sight-in simple and incredibly fast.

FEATURES:

- MOA (Minute of Angle) Sight-In Grid Target Face
- 12 Target Dots
- Rinehart Dual Band Technology
- 2 Target Sides
- Easy - Carry Handle
- Designed Specifically For Crossbows
- Rated For Crossbows Up To 450 FPS

MADE IN USA

18-1 GUARANTEED! FOR A FULL YEAR

This target shows you its best side every time and is the longest lasting archery target we've ever offered. We even guarantee the 18-1 for a full year! With 18 vivid target zones made from legendary solid Rinehart Signature Series Foam, the 18-1 can take arrow after arrow without losing its shape or integrity.

If you shoot out all 18 sides in one year, we will replace it – guaranteed hassle-free with proof of purchase!

FEATURES:

- Lightweight
- Easy - Carry Handle
- Broadhead Capable Crossbow Approved
- Solid Signature Series Foam

PYRAMID TARGET

If you're looking for the best, lightweight and portable archery target on the market, the Pyramid Target is the answer. Whether you're wanting to shoot your bow in the backyard or you're in need of a convenient camp target to make sure your setup shoots true before the hunt, the Pyramid will suit your needs perfectly.

FEATURES:

- Extreme Lightweight Portability
- Solid Signature Series Foam
- Easy-Carry Handle
- MOA (Minute of Angle) Sight-In Grid

18-1
18110 | Height 15" | Width 15" | Depth 15"
The Only Target Guaranteed for a Full Year!

Pyramid Target
19510 | Height 14" | Length 18"

RFT
18210 | Diameter 9"

RFT

The RFT is great for use as a crossbow unloader in the stand or a throw target for judging yardage.

FEATURES:

- Extreme Portability
- Solid Signature Series Foam
- Easy - Carry Handle
- Weighted - Always Lands Upright

RHINOBRUTE

The Signature Series RhinoBrute target measures 16" x 16" x 16" and can handle anything you can sling its way. Made of Rinehart's Signature, solid self-healing foam, this target will prove to be your longest-lasting archery target. All six sides have Rinehart's recognizable high-visibility shooting zones that can take the fastest arrows with field tips or broadheads. An easy-to-carry handle makes it simple for you to move the target around. If you're a serious shooter, you need the RhinoBrute.

RHINOBRUTE FEATURES:

- Six, High Visibility Shooting Sides
- Signature Self-Healing Foam Construction
- Convenient Carry Handle
- Handles Field Tips and Broadheads
- Extremely Long Lasting

RhinoBRUTE
18511 | Height 16" | Width 16" | Depth 16"

RHINOBLOCK

Rinehart's award-winning RhinoBlock target sports six sides to choose from – each engineered to meet individual practice needs. Two sides display a 3D deer target zone – one showing the outlined vital areas of a deer, and the other detailing an anatomically correct display of a deer's organs. The remaining four faces of the target are comprised of Rinehart's signature, highly visible target zones – allowing shooters to continue target practice even in low light conditions.

RHINOBLOCK XL

The "big brother" of Rinehart's classic RhinoBlock target – the RhinoBlock XL rocks an impressive 18" x 18" target zone while still incorporating Rinehart's renowned Signature Series replaceable insert.

RHINOBLOCK & XL FEATURES:

- Patented Replaceable Insert
- 3D Sculpted Deer Vitals
- 40 Target Zones
- Solid Rinehart Signature Series Foam with Easy Arrow Pull
- Easy - Carry Handle
- 6 Shootable Sides - 2 with Insert

FITA WAVE TARGET

Rinehart's FITA Wave Target system was designed to change the game when it comes to competition range targets. Built using Rinehart's high density Signature Series Foam, this target is designed for the repetitive everyday shooting that a top tier archery range generates. Comprised of four quadrants and five patented Rinehart inserts, no other target can provide the flexibility and durability the Rinehart FITA Wave Target can provide. The Rinehart FITA Wave Target provides, for the first time, the ability to replace not only the bullseye on a 122cm target, but also the ability to replace the bullseye on all four 40cm targets. This five insert system combined with our high density Signature Series Foam ensures that the Rinehart FITA Wave Target system will provide a comprehensive target solution for years to come.

BRICK WALL SYSTEM

Rinehart has unleashed the most versatile custom back wall mount system in the industry! Sold by the piece, or as a unit, dealers can customize their order to fit their specific needs and purchase as many or as few bricks as needed. Need a wall built from the ground up? You can have it in no time with the Rinehart Brick Walls's easy to install system.

These bricks can take countless hits without any signs of tearing or damage. Simply flip the brick or change up the order of the stack to further extend the life of the wall. It's that simple! Each brick measures: 4" tall x 15" deep, and is available in widths of 30" and 48". Rinehart Safety Topper and all hardware is included with purchase.

BRIAN JOHNSON'S MASTERPIECE SERIES

Rinehart Targets are well known for their durability and quality. They are also known for the Brian Johnson Masterpiece Series, which creates shooting scenarios archers can only dream of. From the famous Sasquatch target, to the Snapping Wolf/Kicking Deer targets, the Masterpiece Series shows true artwork, created in Rinehart's Signature self-healing foam. Each target is not only realistic with the highest-quality paint, but also completely usable and perfect for 3D competition. The targets are extremely durable, weather resistant and UV protected for years of use. Johnson's attention to detail brings creatures both real and imaginary to your range in stunning, life-like poses and actions. Each target is truly worthy of the title – Masterpiece.

THE OFFICIAL TARGETS OF THE NASP™ IBO 3D CHALLENGE.

Your students will compete on the targets that the pros are shooting at while practicing for official tournaments. All official animals targets have the Rinehart's patented insert locking system and are completely weatherproof for years of shooting regardless of the type of bow.

The "Teacher Preferred" NASP™ target from Rinehart is the top choice of students at all levels. This one of a kind target has a brightly colored scoring face on one side and matte black on the other to practice scoring and shooting basics with ease. The low cost replacement inserts and built in foam stand make this lightweight target durable for many years without the annoyance of metal bands or wooden frames that could damage arrows. As an added bonus the insert system is available in two options; the red and yellow ring in one piece as shipped or in separate pieces for those archers that practice perfection.

Scoring Rings are available for:

- Alert Deer
- Alert Turkey
- Antelope
- Cinnamon Bear
- Coyote
- Standing Stone Sheep

MADE IN USA

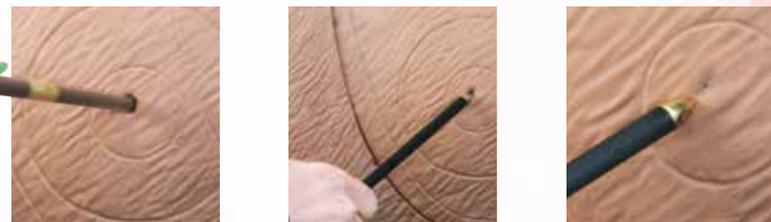

Beauty is more than skin deep, especially in the world of high-end archery targets. It's not enough to look great on the outside — you've got to have what it takes on the inside to withstand a pounding and remain standing tall. From our exclusive solid Signature Series Foam to our unique internal locking insert system, we use only the finest components on all of our targets. That attention to detail shows, from the first arrow to the last.

MADE IN THE U.S.A.

We are dedicated to providing products to our customers that are made right here in Janesville, Wisconsin.

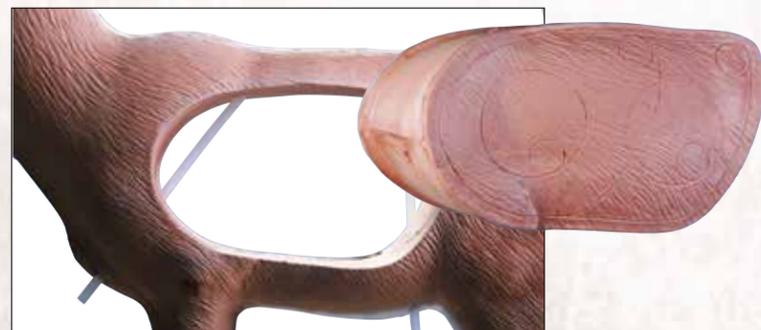

SOLID HIGH DENSITY RINEHART SIGNATURE SERIES FOAM

Target, heal thyself! Rinehart's exclusive solid, self-healing Signature Series Foam targets can take hit after hit after hit without tearing or other damage. Whether you're shooting fieldpoints, broadheads, or even expandable's, Rinehart lets you take your best shot every time without loss of target integrity or risk of pass-through.

PATENTED LOCKING INSERTS

Rinehart targets and inserts feature an exclusive solid, self-healing Signature Series Foam, that absorbs countless shots from field points and all styles of broadheads— with minimal degradation to withstand thousands of hard-hitting shots. When the time comes to replace your insert the patented internal locking system by Rinehart makes the process a breeze. Simply remove the tubes, pop the old insert out, slide the new one in and replace the tubes.

RINEHART TARGETS SHINE IN ANY WEATHER

Oh deer! After years of exposure to the harshest weather conditions, including blazing sun and freezing temperatures, Rinehart's exclusive arrow-stopping, solid self-healing foam proves to be virtually weatherproof. With colored foam all the way through the target and rugged "Uni-Body" assembly, these 3D targets are ideal for year-round use in the backyard or in the field.
