PROMOTIONALS

page 39

Taking the cue from the travel luggage market, Aurora brings the **semi hard case** into the archery market.

1998

TROLLEY CASE

The archer doesn't travel only by car, but also uses bicycles: to suit this archer the City Pack backpack is born.

2001

CITY PACK

The last addition to the line, the **Proline modular quiver**. Innovation always!

PROLINE QUIVER

2018

AURORA, A STORY OF SUCCESSES AND INNOVATION!

AURORA has been standing out since its first entry into the archery market for the great ability to reinvent consolidated and static products and introduce new ones capable of satisfying long-term unanswered needs.

The first **AURORA** accessories for the archer are dated 1998. Since then numerous products led the market and ended up being models copied by many other producers. We only list a few, particularly interesting milestones in the long history of **AURORA**.

2006

A breath of fresh air in archery. A range of products for young archers but not only.

2010

The **carrying systems** evolve themselves, we experience new ways: without hands!

SEAT PACK

2014

The usual **backpacks with stool** are too light for the pros: we adopt an integrated super structure.

HYBRID CITY PACK

2012

We add **EVA shells** and the backpack becomes a **Hybrid**.

PRO *line*

Over 100 combinations possible!

The new ProLine quiver is a revolutionary system that can be disassembled into easily transportable parts and reassembled quickly and easily thanks to the special magnets that hold the different parts together. The parts can be purchased separately and therefore the quiver can be changed at will. You can make it a three or four-tube version, add a large or narrow upper pocket and choose each part into a range of available colors. The quiver can be used for indoor, outdoor and 3D archery indiscriminately.

FEATURES

- the peculiar structure allows you to choose and combine the parts at will: the quiver can be changed at any time with the purchase of new components
- the side quiver is composed of the arrow holder body, with 3 or 4 tubes, the double large or small upper pocket and a belt
- pockets have magnetic closure, therefore you can open them even using one single hand
- the large top pocket module also has a pocket with zipper
- the bayonet style quick detach system allows to store and change the quiver easily
- the centered alignment of the arrow body keeps it balanced and away from the leg
- the weight is perfectly distributed on the side
- the drainage hole at the bottom of the quiver allows to drain the water if you are shooting in the rain
- designed in Italy

INSTRUCTIONS TO ADJUST IT

Raise the buckle fixing lever and remove the belt.

Put the buckle in the central position of the rack.

Wear the belt and mark the correct length.

Cut the belt.

Put the cut side back into the buckle and close the lever.

TECHNO

HIP

Well structured quiver that offers the highest quality and practicality. The **TECHNO** quiver is a must for archers Worldwide.

The fabric used for its production is characterized by a rich and elegant look with bright colors (especially in the blue and red versions).

The **lightweight structure**, with plastic tubes to divide the arrows, makes it exceptionally practical. Complete with belt in matching color.

▶ **Weight:** 590 g

▶ **Colors:** black, blue, red

CODE 53H593

FIELD

TECHNO

The practicality of the Field type quiver has made it, in recent years, increasingly popular even among those who practice target shooting simply because of the greater space that this type of quiver leaves to movement on the line.

This Aurora model has a beautiful and elegant structure with a rich fabric and bright colors. Strong but lightweight, it will surely be appreciated.

Complete with belt in matching color.

▶ **Weight:** 610 g

▶ **Colors:** black, blue, red, camo

CODE 53G886

A quiver with a modern and captivating look that uses **new fabrics in melange colors**. The main body is equipped with a large pocket on which there is also a flat pocket to hold pens and a score card. Other two pockets are placed on the flap with the belt loop. One of these is larger and the flatter one is designed for the arrow puller.

Equipped with four arrow tubes and supplied complete with belt in matching color.

- ▶ **Weight:** 460 g
- ▶ **Colors:** blue, orange, olive green, gray, red, green

CODE 53S947

TECHNO FIELD LITE

A Field quiver with a semi-rigid structure, available in a range of 6 bright colors, has a large accessory pocket on the main body and a mesh pocket on the top to store the arrow puller or tab.

Supplied complete with belt.

- ▶ **Weight:** 540 g
- ▶ **Colors:** black, blue, green, gray, orange, red

CODE 53S384

HIP

Light weight and colorful quiver, perfectly reversible. Equipped with a hook to hang it directly on the pants or belt. The pocket is kept in position by a Velcro strap. If not used it can be removed and stored, while it must be moved to the opposite side to use the quiver as left hand version.

▶ **Weight:** 350 g

▶ **Colors:**
available in black with details in the colors:
white, blue, red, purple, green, blue;
or in full color version:
blue, green, light blue, pink, orange, red.

CODE 53G368

FIELD

This new Aurora model has a beautiful and elegant structure, with a rich fabric and bright colors. Strong but lightweight, it will surely be appreciated. Equipped with a large accessory pocket and a flat pocket to store the arrowpuller or tab on the part near the belt loop. This quiver is perfectly reversible, usable by both right and left handed archers. Belt not included.

▶ **Weight:** 350 g

▶ **Colors:** black, blue, green, light blue, orange, red

CODE 53S633

Quiver for young archers, reversible left / right. It can be used both in combination with a belt or hanging directly on the pants.

Weight: 150 g

Colors: blue, orange, gray, green, yellow, red.

TECHNO

Roomy and well organized **backpack for recurve bows**, with numerous internal pockets for the equipment and some personal effects.

Well padded structure complete with padded sleeve for risers and limbs. **Arrow cylinder included.**

In addition to the inside space, which is more than enough for an archer's standard equipment, the backpack also has a large front pocket and two mesh pockets on the sides, one of which can be used for the spotting scope stand thanks to the straps on top.

The backpack has padded shoulder straps and a belt with pockets, one of which is complete with USB port ready for use with battery chargers (not included). The backpack shoulder straps can be hidden in a special pocket on the back of the backpack.

The backpack can also be carried as a bag with the use of the included single shoulder strap.

For those who are not afraid of moving under the rain, it is possible to purchase as a separate accessory a rain cover in fluorescent color with reflective band to move safely even in conditions of poor visibility.

- ▶ **Dimensions:** 72 x 32 x 22 cm
- ▶ **Weight:** 2.4 kg standard accessories included
- ▶ **Colors:** orange, red, green, blue, olive green, grey

CODE 53R123

The padded shoulder straps can be hidden in the specific pocket.

Practical USB socket to charge your own cell phone with a charger (not included) that can be stored inside the pocket on the belt.

Well structured inside space for perfect equipment organization.

RAIN COVER

Rain cover for recurve backpack, it fits most backpacks on the market. In fluorescent yellow water-repellent material and with reflective bands, it offers maximum protection and visibility even in low light conditions. Complete with ring for fixing inside the Techno backpack pocket.

CODE 53T156

TRAVEL COMPANION DOUBLE DECK COVER

This very practical accessory, supplied as standard in all Proline recurve cases and in the Techno backpack, guarantees maximum protection to your recurve bow and helps better organize the space inside the case.

CODE 53S932

HYBRID CITY PACK

dynamic

The backpack **Dynamic City Pack Hybrid** has a particularly strong and functional structure. The inside space is organized in order to balance the weight as much as possible, keeping the arrow cylinder in the middle and riser and limbs on the sides.

The front opening allows you to access the content much more comfortably with a more immediate view of the inside.

On the sides there are pockets for accessories, which are protected from possible shocks by the carbon look EVA shells. These same side shells give the backpack at the same time an elegant appearance and shape.

Complete with arrow cylinder.

Dimensions: 68 x 30 x 19 cm

Weight: 2.69 kg

Colors: red

CODE 53F969

The Aurora Next recurve backpack is part of a line designed for young archers. The bright colors and especially the low price level allow customers with limited budget to approach the Aurora brand.

The Aurora Next recurve backpack is the ideal product for young recurve archers.

This backpack maintains unaltered some of the main features of the superior models but with a lower level of finishing and details.

Supplied complete with arrow cylinder, which is also available as optional accessory under the code **531681**.

Being a product intended for a young audience, the Next backpack is offered in 6 different color combinations, which also include bright colors.

- ▶ **Dimensions:** 67.5 x 34 x 19 cm
- ▶ **Weight:** 1.85 kg

PRO *line*

The best case for recurve bow!

The **Aurora ProLine** case, with a fresh and elegant look, has a number of high level features that have been making it, since years, one of the cases most appreciated by archers around the world. Its famous EVA molded shell allows to obtain a greater shape consistence and a greater resistance without giving up the shock damping offered by the semi-rigid material.

In the **Aurora ProLine recurve case** the single shoulder strap and a double deck cover for limbs and riser are included.

Shoulder straps to carry it on your back, the airline cover and numerous other modules to organize the inside space can be purchased as optional accessories.

▶ **Dimensions:** 93 x 33 x 22 cm

▶ **Weight:** 5.7 kg

CODE 53R372

ACCESSORY MODULE

To further organize the small accessories inside the pockets of the suitcases, an accessory module is available that adapts perfectly to the size of the smallest pocket.

CODE 538519

Supplied as standard in all Proline recurve cases, the double deck cover offers maximum riser and limb protection thanks to good padding.

The wheels of Proline cases are equipped with ball bearings for maximum smoothness. They are available as spare parts with code 53G758

BACK CARRYING SYSTEM

The shoulder strap, which can be purchased as an optional accessory for semi-rigid AURORA cases can be used both as a traditional shoulder strap to carry the case as a backpack and to tow it without using hands.

CODE 53C139

TECHNO

*An open,
flexible system!*

The Techno recurve model is 92 cm long and perfect for any arrow and stabilizer.

It is enough to accommodate two complete recurve bows but handy and compact.

The inside space is left free in order to allow the archer to use it at will. To better organize the material in the case and to guarantee protection at the same time. Aurora offers numerous optional accessories.

▶ **Dimensions:** 93 x 33 x 22 cm

▶ **Weight:** 5.1 kg

CODE 538045

A fresh and dynamic look characterizes the TECHNO case line.

Thanks to the numerous accessories that can be purchased separately, the interior space can be organized in a functional way.

AIRLINE COVER FOR RECURVE CASE

To best protect your case, Aurora offers an airline cover that fits Proline, Techno and Level models. It is built in a very durable material to withstand the abuses of air transport. Supplied with two carrying handles on the long side, a handle on the top, a name pocket, two compression straps and wheel openings.

CODE 53B246

All Proline, Techno and Level cases are ready to be used with the back carrying system that allows you to carry your case either as a backpack or with the hands-free mode.

Grey

Green

Red

A semi-rigid case featuring a good and rational internal organization of the space and above all an excellent quality / price ratio.

It is available in 3 different colors.

Supplied complete with carrying strap, it is equipped with hooks for the application of the back carrying system.

The Double Deck cover for the riser and limbs protection is available as an optional accessory.

▶ **Dimensions:** 93 x 35 x 22 cm

▶ **Weight:** 4,6 kg

▶ **Colors:** gray, green, red

CODE 53S875

The LEVEL bowcase is equipped with the TSA locking system to allow control by the police authorities at the Airports.

With the optional back carrying system it is possible to convert the case into a backpack.

CODE 53C139

Semi-rigid recurve bow case with wheels integrated in a rigid plastic support that also provides protection for the lower corners.

Specific supports keep the fabric on the bottom raised from the ground when the case is laid down to take the equipment out of it and when it is in an upright position during stops. Inside, the bottom is equipped with different holes to fix the bow and limbs using the supplied elastic cords. Two large mesh pockets fixed to the upper side allow storing accessories like the quiver, a chestguard etc. The case is equipped with handles on the side and on top and with a shoulder sling.

▶ **Dimensions:** 85 x 28 x 15 cm

▶ **Weight:** 2.9 kg

▶ **Colors:** blue

CODE 53I157

dynamic

TOP

The **DYNAMIC TOP** Recurve case has been for years the reference point for many archers. The new version is completely renewed in style, size and organization of the inside space. Furthermore, it now has a semi-rigid lower shell that offers higher protection to your equipment. Equipped with shoulder strap.

▶ **Dimensions:** 90 x 34 x 16 cm

▶ **Weight:** 3 kg

CODE 538392

RECURVE SOFT CASES

dynamic

MIDI

The **DYNAMIC MIDI** recurve case provides an excellent internal organization of the space to store every accessory in an organized way and with maximum protection.

Back carrying style thanks to the shoulder straps on the back of the bag.

▶ **Dimensions:** 92 x 33 x 10 cm

▶ **Weight:** 1.65 kg

CODE 537529

Exclusive back carrying style on a single shoulder that for some archers is more comfortable than the classic two-shoulder system.

The new Aurora Next bag for recurve bow shows a simple design and a beautiful range of colors.

Lightweight and equipped with internal pockets for risers, limbs and accessories. The value for money makes it a choice recommended for those looking for a simple but quality recurve bag.

ACCESSORIES FOR BAGS AND CASES

PRO *line*

The compound case par excellence!

A case that offers maximum protection, thanks also to the EVA semi-rigid lower shell that makes the structure stronger. In this way the case does not bend and go touching the ground when it is dragged on the wheels.

The points of possible greater wear are protected by external plastic structures. These prevent the fabric from becoming worn and keep the case intact for longer.

The main transport system is dragging it onto the special replaceable wheels equipped with ball bearings. At the same time the case is equipped with rings to apply the back carrying system that allows to carry the bag either completely on your shoulders or by dragging it on the wheels. The back transport system can be purchased as an accessory.

In addition, the suitcase is equipped with a shoulder strap and side handles, useful to overcome obstacles or stairs. The interior is covered with a velvet where velcro backed accessories can be fixed. In addition to the already present internal pockets, Aurora offers a range of pockets and cases that can further customize the interior space.

▶ **Dimensions:** 117 x 40 x 24 cm

▶ **Weight:** 6.2 kg

CODE 539580

The bottom of the case on the wheel side is equipped with a special support on which the case can stay balanced upright during stops.

The upper shell is divided into three compartments closed by a zip. The upper right compartment, designed for small accessories, can be completed with one or more optional accessory modules (# 1 CODE 537550).

The lower compartment can perfectly accommodate a cylinder or arrow box and the stabilizer.

The interior includes: 4 Velcro straps to fix the compound bow; a padded divider flap useful when carrying two bows and belts for locking them; shoulder carrying strap.

The back carrying system, as well as the different pockets and the cylinder or the arrow box needs to be purchased separately.

AIRLINE COVER FOR COMPOUND CASE

To better protect your case, Aurora offers an airline cover that fits Proline, Techno and Level models. It is built in a very durable material to withstand the abuses of air transport.

Supplied with: two carrying handles on the long side; a handle on the top; a name pocket; two compression straps and wheel openings.

CODE 53B245

TECHNO

*Plenty of space,
maximum flexibility!*

The **Techno case** has an EVA semi-rigid shell which ensures maximum protection for the equipment and is purposely designed as an **Open Space**, which the archer can organize at will.

To complete the **Techno case** the use of the new **Techno soft case** is recommended. It fits the inside of the case perfectly and allows to better organize the equipment.

▶ **Dimensions:** 117 x 40 x 24 cm

▶ **Weight:** 6.6 kg

CODE 53B640

The Techno case is complete with a padded shoulder strap that is adjustable in length to carry it on one shoulder.

The lower shell is reinforced with bars that also act as a support for the case when laid down and opened to access the contents.

It is also possible to purchase the back carrying system as an optional accessory.

BACK CARRYING SYSTEM FOR CASE

For those who need to better organize the inside space of the case, the perfect solution is the Techno soft case (see page 30).

CODE 53S940

A semi-rigid case that features a good, rational organization of the inside space and, above all, an excellent quality/price ratio.

Supplied complete with several accessories including:
 cam protections; accessory pocket;
 padded divider for two bows with fixing straps;
 4 Velcro straps for further fixing
 the bow to the bottom of the case.

You can carry the case dragging it on the wheels or with the shoulder strap included.

Alternatively, the back carrying system can be purchased as an optional accessory and fixed to the 4 hooks on the bottom.

Available in 3 colors.

Dimensions: 115 x 41 x 22 cm

Weight: 6,55 kg

Colors: gray, green, red

CODE 53S874

Grey

Green

Red

The Level Compound Case is a semi-hard shell case with a large main compartment (115x40x20cm) that can host a 40" bow. The inside is completely padded with a soft lining where you can attach the Velcro straps. For those who want to store two bows, or simply to better protect the bow, a padded divider that can be fixed with two straps (included) is sewn on the side. The upper shell is divided into three pockets.

four rings for the back carrying system.

Replaceable wheels

The case stand allows to balance it in a vertical position

The case is complete with **2 cam protection sleeves**, **2 angular pockets**, **2 fixing straps** and **4 Velcro straps**.

Ready to travel!
Since the archers love to travel and may need to carry their bow, the LEVEL case is ready with a TSA lock.
Do you want to fly to Las Vegas? Don't worry, you can!

TECHNO

A compound bowcase of generous dimensions suitable to host any model of bow.

Equipped with two large front pockets the upper of which is divided in three compartments.

Inside there are also accessory pockets and four practical straps to fix the bow.

The bag is supplied with a padded shoulder strap.

The Techno bag has been sized to fit perfectly inside the Techno and Level cases and thus become the most practical modular transport system for the compound archer.

Available in six different color combinations, all made with the new melange fabrics.

The padded lower shell comes complete with 6 Velcro straps to fix the bow.

Dimensions: 115 x 38,5 x 11,5 cm

Weight: 2 kg

Colors: red, orange, olive green, gray, green, blue

CODE 53S940

dynamic

TOP

An Aurora classic, an exclusive shape that has always been distinctive of our bags. A shape that facilitates transport and reduces excessive bulk.

The new version offers a renewed line and look that includes, among other things, the use of the exclusive melange fabric.

The DynamicTop soft case is available in two different lengths, one to accommodate bows with axis / axis length up to 35 inches and one up to 40. It has a large separate compartment to hold up to two bows or divide the bow from the quiver.

▶ **Dimensions:** 115 x 40 x 16 cm

▶ **Weight:** 2,8 kg **CODE 53T919**

▶ **Dimensions:** 105,5 x 39,5 x 16 cm

▶ **Weight:** 2,6 kg **CODE 537605**

The case can be carried either with the handles, on the shoulder with the supplied shoulder strap, or as a backpack.

The large upper external pocket can hold the arrow box, as well as having an additional internal pocket.

The outer profile of the case is well padded to protect the equipment and the corners are further reinforced.

On the back of the bag there is a large flat pocket for documents or rain gear.

dynamic MIDI

The Midi soft case has a shape that adapts particularly well to modern compound bows with parallel limbs. The sober but non-trivial look adapts to any situation.

The bag includes: an insert to stiffen the bottom; shoulder strap for carrying it on the shoulder or back; internal divider to transport two bows or to divide the bow from the rest of the equipment.

▶ **Dimensions:** 120 x 43 x 4 cm; big pocket 95 x 22 x 7 cm; small pocket 33 x 21 x 3.5 cm

▶ **Weight:** 2,15 kg

CODE 53E835 Black

CODE 53E834 Camo

A simple and brightly colored bag, ideal for holding compact bows.

On one of the two sides there are two straps designed to apply an arrow cylinder (available as an optional accessory).

Available in 3 different colors.

▶ **Dimensions:** 110 x 47 x 3 cm

▶ **Weight:** 990g

CODE 53M880

SEAT PACK

Backpack designed with the archer in mind, particularly suitable for the use on outdoor fields, on field courses and in any occasion where a comfortable seat is needed together with the capacity of a backpack. It can be opened from the sides to allow access to the contents from the sitting position. The belt that goes round the upper area can hold the quiver, which is particularly appreciated by 3D archers. In addition to the central compartment there are pockets for accessories, a pocket for a binocular, one for the umbrella and an external mesh water bottle pocket.

▶ **Dimensions:** 49 x 29 x 20 cm

▶ **Weight:** 1.9 kg

CODE 53F973 BLACK

CODE 53H728 CAMO

The small accessories are easily found and the large ones easily reachable, thanks to the large side access pockets to the main compartment.

The space is perfectly organized. The inside of the side pocket has a pocket for the binoculars while on the outside there is another pocket for the bottle.

The new sturdy aluminum structure that supports the seat is absolutely reliable and very lightweight. The seat can hold up to 130 kg.

The backpack shows its archery soul in every detail: the quiver can be attached to the front belt and you will not need to wear it to have the arrows always at hand.

The classic backpack with stool has been renewed in look and use of materials. The fabric has now been replaced by a tone-on-tone combination of melange grey.

In addition to the two side mesh pockets meant for the water bottles, the backpack has a front opening which can also be accessed while seated.

The stool folds up when the backpack is worn or it can be removed if not necessary.

On the sides of the backpack there are practical mesh pockets for additional water bottles.

Dimensions: 38 x 27 x 17 cm backpack only; 42 cm seat height

Weight: 1.65 kg

CODE 539177

The camo version has a more traditional look and a different pocket opening.

Dimensions: stool 30x32 x43 cm,
backpack 27x17x37 cm

Weight: 1.6 kg

CODE 539137

ARCHERY BACKPACK

The perfect archer's backpack

Not a simple backpack but a versatile one designed specifically for archery. The Archery backpack developed by Aurora is organized with an internal accessory storing system and includes two side compartments to host an arrow cylinder or a tripod for optics.
