

NINE.3 MAX SHAFT HIGHLIGHTS

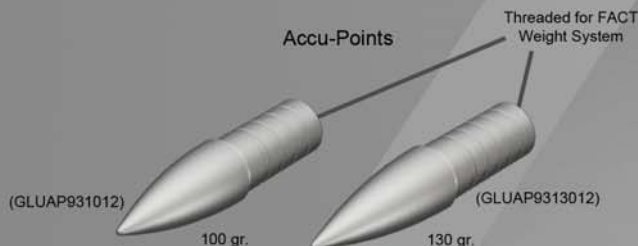

The **NINE.3 Max** is barely legal, yet compliant with 9.3mm World Archery and USA Archery competition rules. Thanks to Gold Tip's legendary 100% carbon construction, you get repeatable one-hole-accuracy while taking on abusive targets like a champ. And yes, it's also a great 3-D arrow as well.

- Available in two grades (Pro .001) and standard (.005) straightness
- Max Diameter allowed for WA Association(FITA)
- Ultra-durable Gold Tip Construction
- 8.5 grains per inch with 32" full length shafts at a .250 spine
- Weight sorted to +/- .5 grains to the dz
- Multiple component offerings
- GT or HD Pin Nocks options
- Accu-Bushing available for .246 GT and Acculite nocks or uni-bushing for the new GTO nock
- 100 and 130 grain base points that accept the FACT weight system. These weights allow you to customize your front-of-center to reach the extreme accuracy you desire.
